

# GP information only - Leeds Radiology GP X-ray walk-in service (adult patient referrals)

**Radiology offer a walk in service for adult patients who have been referred for an X-ray by a GP.**

**Children will continue to have a booked appointment.**

Patients have 28 days to attend for their appointment, if they fail to attend after 28 days, the referral will be cancelled and Radiology will inform you that the patient failed to attend.

Please make patients aware they may have to wait to be seen on their arrival if the department is busy.

For patients who require an appointment, please indicate this on the referral and we will send them an appointment. Alternatively, the patient can contact the **Radiology enquiry & booking line - 0113 733 4974**

**Please note:**

- A booked appointment is required for referrals made for 'dual energy' chest x-ray, follow up X-rays or patients who need transport.
- Patients who are being referred for pelvis/hip when there is any concern regarding trauma / fracture should be directed to St James's or LGI.
